

Iowa 330 Trail

MILES: 11.1

TRAIL SURFACE: Concrete

CITIES: Marshalltown, Melbourne

DIFFICULTY: Easy

TRAIL DESCRIPTION:

The Iowa 330 Trail stretches from just west of the small town of Melbourne to the outskirts of Marshalltown. The trail provides a safe off-road alternative for bicyclists and pedestrians to the busy State Route 330 and even busier US 30. In fact, the trail runs adjacent to the two highways for almost its entire route. The Iowa 330 Trail ends closer to Marshalltown at the Grimes Farm Nature Center. There it directly links with the Linn Creek Recreational Trail, which offers a scenic and winding route through the heart of Marshalltown before ending at Riverview Park in the city's northeast corner.
